

RC BANDIT CUSTOMER DAY 2011—PMAC

Frazer and Shaun get up close and personal.

Pete's Hangar 9 Pawnee. One of the easiest and nicest planes to fly ever. Nice job Pete.

**Daniel shows us how to do it with his EG 50cc Extra,
again and again....**

and again and again.

No No, I'm pretty sure that's the front!

Young Riley flies the 50cc Raven with Frazer on the Buddy Box. Dad watches nervously from behind with a tight grasp of his wallet and the readiness to grab his son and flee at the first signs of trouble.

The Ravens like to hunt in packs, or is that flocks?

Matt is distracted by the sounds of a crash and a potential new sale.

Is this the Hangar 9 1/4 scale Cub?

Slightly overpowered Funtana 50. Too much is never enough!

Brent does his bit for global warming with his TRex 700

Wrong way Brent!

Another food processor.

Sorry—I meant lawn mower.

I'd better tie it down or Brett will try and fly it!

Maybe some more beers and contemplation is needed

John's Electric Spad from Great Planes

Thanks to Janice and Peter Angus for these photos—mainly thanks to Janice, but Pete did drop them off.
